

The Witness Protection Program

– 2009 Vintage –

Our two Witness Tree Vintage Select wines are offered on a futures basis at the winery on every Memorial Day Weekend. We refer to this as our

"Witness Protection Program".

What this means is that on this weekend, you get to taste the vintage that will be released next year directly from the barrel in which it is now aging. If you agree with us that this selection is something you definitely want to have in your wine cellar, you join the Program. You purchase a case or half case of the wine right now at a significant discount. Full cases may also be split between the Pinot Noir and Chardonnay.

You will then be invited to a party sometime around Thanksgiving Day to pick up your wine. At that point, this wine will not yet have been released to the general public. In addition, each year you will also be invited to an exclusive tasting of the following year's selection of Witness Protection Program wines, (Usually sometime just before the big weekend.) This is an opportunity to mingle with other members without the crush of the Memorial Day visitors without aliases.

Experience has shown that some of the vintages of Vintage Select wines were in scarce supply within months of their release. Not only are you assured of your share of a great vintage, but you also obtain your wine at a price far below that which will be required after release.
